REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 1-10, 12-26, and 28-31, wherein the claimed invention comprises a micro grating structure wherein said light is reflected on said electric conductive and light reflective layer of said grating after said grating is returned to normal, which is resulting from a recuperative force of said first, said second, said third and said fourth torsion beams generated after said electrostatic force vanishes; wherein the first and second torsion beams have an identical deformation when twisted and wherein the third and fourth torsion beams have an identical deformation when twisted and an angle between 0 and 1 degree, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brandi N. Thomas whose telephone number is 571-272-2341. The examiner can normally be reached on 8-5.
